Introduction. Molecular crowding is crucial for the efficient function of biological systems (Zhou et al., 2008).If *Xenopus* egg extracts are diluted by more than a few percent, fundamental biological processes such as mitosis and DNA replication fail (Lohka and Maller, 1985).High concentrations of crowding agents entropically favor molecular association events, thereby accelerating molecular ...

The Georgia School of Technology opened in the fall of 1888 with two buildings. One building (now Tech Tower, an administrative headquarters) had classrooms to teach students; The second building featured a shop and had a foundry, forge, boiler room, and engine room. It was designed for students to work and produce goods to sell and fund the school.
