Exponential Functions - She Loves Math

In this section we will introduce two problems that we will see time and again in this course : Rate of Change of a function and Tangent Lines to functions. Both of these problems will be used to introduce the concept of limits, although we won't formally give the definition or notation until the next section.

Calculus I - Tangent Lines and Rates of Change

Case study: Train schedules. I recently created a program for planning trips on BART, the San Francisco bay area subway system, in the form of a "Dashboard widget" (mini-application) for the Apple Macintosh.. The design has clearly been successful. Even though the target audience is fairly small (SF bay area public transportation riders with the latest Mac OS and knowledge of how to ...
