Scientific Variables

Control variables are the most difficult thing to identify because they are not always listed in the experiment steps, sometimes students have to infer what these variables might be. I included several possibilities for each experiment, including those not listed in the experiment set up, at the bottom of each document, along with the other ...

Fifth grade Lesson Identifying Variables in an Experiment

This video describes how control and variable groups are used to test a hypothesis. This video describes how control and variable groups are used to test a hypothesis. Skip navigation

Control and Variable Groups

Best Answer: The control group is the portion of the shower that is sprayed with water. The independent variable is the material sprayed on the shower walls. The dependent variable is the amount of green slime that remains on the walls. His conclusion should be dependent on the difference in the dependent ...

Questions about Identifying the controls and variables ...

Variables, Constants & Control Groups. This is to help you get more practice identifying variables and constants. If you get some wrong, don't worry....just go back over them until you get them right and know why you got them right!

Quia - Variables, Constants & Control Groups

A variable in an experiment which is held constant in order to assess the relationship between multiple variables, is a control variable. [1] [2] A control variable is an element that is not changed throughout an experiment, because its unchanging state allows the relationship between the other variables being tested to be better understood.

Control variable - Wikipedia

Controls and Variables - Part 1 SpongeBob and his Bikini Bottom pals have been busy doing a little research. Read the description for each experiment and answer the questions. 1 - Patty Power Mr. Krabbs wants to make Bikini Bottoms a nicer place to live. He has created a new sauce that he
