Entering Data A new worksheet is a grid of rows and columns. The rows are labeled with numbers, and the columns are labeled with letters. Each intersection of a row and a column is a cell. Each cell has an address, which is the column letter and the row number. The arrow on the worksheet to the right points to cell A1, which is currently highlighted, indicating that it is an active cell.

With 1.5 billion people covered globally, food and voucher programs provide an important lifeline for the poor and vulnerable. The study – The 1.5 Billion People Question: Food, Vouchers or Cash Transfers? --reveals that while countries increasingly support people with cash as a form of safety net, food-based programs are still important interventions in some contexts.

Different poverty levels. Poverty lines shown here include \$1 a day, \$1.25 a day, \$1.45 a day, \$2 a day (typical for many developing countries), \$2.50 a day (which includes a poverty level for some

additional countries), and \$10 a day, which a World Bank report referred to if looking at poverty from the level of a wealthy country, such as the US.

Poverty Around The World — Global Issues

Preface. This introduction to R is derived from an original set of notes describing the S and S-PLUS environments written in 1990–2 by Bill Venables and David M. Smith when at the University of Adelaide. We have made a number of small changes to reflect differences between the R and S programs, and expanded some of the material.
