Answers - The Most Trusted Place for Answering Life's ...

Herbalism (also herbal medicine) is the study of botany and use of plants intended for medicinal purposes. Plants have been the basis for medical treatments through much of human history, and such traditional medicine is still widely practiced today. Modern medicine makes use of many plant-derived compounds as the basis for evidence-based pharmaceutical drugs.

Herbal teas are a delicious and easy way to increase your fluid intake and sneak in some extra nutrients. Unlike coffee (whose health benefits are highly debated) herbal teas offer the benefits and nutrients without the caffeine (and pesticides in non-organic coffee).. There are literally thousands of combinations of herbal teas, so there is one for every palate.
