In this lesson, we will explore bone as a connective tissue. We will discuss the anatomy of bone, as well as the cell types which make up bone, including how bone is formed and broken down.

Bone Tissue: Functions and Types - Video & Lesson ...

In biology, regeneration is the process of renewal, restoration, and growth that makes genomes, cells, organisms, and ecosystems resilient to natural fluctuations or events that cause disturbance or damage. Every species is capable of regeneration, from bacteria to humans. Regeneration can either be complete where the new tissue is the same as the lost tissue, or incomplete where after the ...

4f. Effects on the skin: Similar to the effect of the epithelial cells lining the gut and the respiratory tract, the cells that make up the skin of a dog are just another tough layer of superficial epithelial cells, which line and protect the body and underlying tissues from external injuries and diseases. Because it likes to infect and damage epithelial cells, canine distemper also tends to ...

Veterinary Advice Online: Canine Distemper Virus.

Urine specific gravity is used to provide a rapid estimate of urine solute concentration. Urine SG is a measure of weight of solutes in a given volume of urine and is therefore determined by the number and size of the solute molecules.

Concept art by Ron Cobb for Alien; What's in the sickbay? What you'd expect: medical supplies, diagnostic equipment, maybe a sick bed or two, maybe a suspended animation cryo-freeze to put a seriously ill or injured crewperson on ice until the ship can make it to port. On a military ship, the sick bay may have its own separate life support system.

Dear Yousef, First, you should visit a doc to check out your symptoms, confirm your diagnosis. If you decide to give saline nasal rinses a try, read through the 4-part series here on this blog for details – how to do them, how to make the saline (with or without Manuka honey).

Sinus Rinses: if once/day is good, is 4x/day even better?

Fructose it seems can induce ketogenesis and if we accept that ketones are an indication of hypoxia and we consider the implications of chronic hypoxia and that it precipitates all disease, all the sudden we have a very plausible explanation for the association of fructose with different disease states.
