In computing, floating point operations per second (FLOPS, flops or flop/s) is a measure of computer performance, useful in fields of scientific computations that require floating-point calculations. For such cases it is a more accurate measure than measuring instructions per second.. The similar term FLOP is often used for floating-point operation, for example as a unit of counting floating ...

Hi. I'm a former developer who's moved into database administration, and here's what I wish somebody would have told me when I got started. 7. SQL functions rarely perform well. Good developers like to reuse code by putting it into functions, and then calling those functions from multiple places. That's a great practice in the...
