As I read the chapter "Essential Questions: Doorways to Understanding" in Understanding by Design, I realized that many educators I know have an erroneous understanding of what essential questions are and how to use them. For instance, I can remember the middle school principal I worked with encouraging me to post essential questions on my board.

While some rules for punctuating bulleted lists differ, most are the same as those used for in-text lists. The difference are the use of the bullets and the use of white space, which provide visual separation and which reduce the need for punctuation.The bulleted lists presented on this page are examples of list ("seriation") guidelines from a variety of business and academic style manuals, as ...

Abstract. Selectors are patterns that match against elements in a tree, and as such form one of several technologies that can be used to select nodes in a document. Selectors have been optimized for use with HTML and XML, and are designed to be usable in performance-critical code. They are a core component of CSS (Cascading Style Sheets), which uses Selectors to bind style properties to ...
