Intelligent design (ID) is a pseudoscientific argument for the existence of God, presented by its proponents as "an evidence-based scientific theory about life's origins". Proponents claim that "certain features of the universe and of living things are best explained by an intelligent cause, not an undirected process such as natural selection." ID is a form of creationism that lacks empirical ...

Intelligent Swarming: Considerations for Starting Out
A good question comes with an intent to facilitate the process of exploring the answer. It exhibits problem-solving intelligence rather than passively waiting for an answer to drop from above. A lousy question, on the other hand, is an act of intellectual dishonesty and a huge time sink for those

who answer it.
