Teach English: Intermediate Grammar | Coursera
-1 because this answer assumes that the current notation is the only possible notation if a static indexer were implemented. The use of this in an indexer is not necessarily required, it was likely chosen above other keywords because it made the most sense. For a static implementation, the following syntax may be quite viable: public object static[string value].

- Good critical thinking processes don't just look at causes, they look at consequences as well. A great tool for thinking through the consequences of an action is the 7 So What's. The 7 So What's force you to go from an early answer to think through all the possible implications and future consequences of your action. Let me offer an example. Let's say we have a situation where we're going to ...
