ISACA® is a nonprofit, independent association that advocates for professionals involved in information security, assurance, risk management and governance.

Information Technology - Information Security ...

Information security, sometimes shortened to InfoSec, is the practice of preventing unauthorized access, use, disclosure, disruption, modification, inspection, recording or destruction of information.The information or data may take any form, e.g. electronic or physical. Information security's primary focus is the balanced protection of the confidentiality, integrity and availability of data ...

Information security - Wikipedia

A financial audit is conducted to provide an opinion whether "financial statements" (the information being verified) are stated in accordance with specified criteria.Normally, the criteria are international accounting standards, although auditors may conduct audits of financial statements prepared using the cash basis or some other basis of accounting appropriate for the organisation.

Financial audit - Wikipedia

Internal Auditing reports functionally to the Auburn University Board of Trustees and administratively to the President of Auburn University. Internal Auditing is an independent, objective assurance and consulting activity designed to add value to improve Auburn University's operations.

Auburn University Division of Internal Auditing

The department of business and information technology offers a variety of graduate certificates. Each certificate program consists of four courses and is open to persons holding a bachelor's, master's or Ph.D. degree in areas such as business, social sciences, technology, engineering, or related disciplines who have the required pre-requisites for the courses in the program.
